INCLUDED SERVICES AND EQUIPMENT ON KILIMANJARO, SUPERIOR SERVICE OPTION

Our 'Superior' option is what separates us from other outfitters and some items are unique and exclusively provided by us. This lets us claim to be the leader in professional and sustainable treks on Kilimanjaro.

Camping equipment

Our camp is easily recognizable anywhere on the mountain. With 3 decades experience of outfitting on Kilimanjaro, we take great pride in having kit with the best look and function on Kilimanjaro.

- **Mountain Hardwear Trango 3.1 sleeping tents**- a triple tent used as a double tent or single tent (with supplement)
- **Custom-made ground sheets** for all sleeping tents, covering both vestibules to allow clean & dry storage of gear
- **Cold weather sleeping mats (closed cell foam)** which cover the entire floor of the sleeping tent, ensuring that you, and all your gear, stays dry throughout the climb.
- **Large private toilet tent with portable flush toilets** - Each chemical toilet has hand-sanitizer available and a built-in wastebasket. Groups from 7+ have 2 private toilets
- **Dining tents** are large custom-designed and fabricated weatherproof tents with fly sheet, two doors, windows, and ventilation. We have various sized dining tents, the largest of which can accommodate up to 15 trekkers comfortably!
- **High powered solar LED lights** are provided in the dining tent for headlamp-free dinners each evening.
- **Aluminum dining tables**, with customized adjustable legs to make a level surface on uneven ground - covered with colorful Maasai-style tablecloths
- **Large aluminum chairs** with backs and armrests, for all meals
- **Washstands** provided for washing hands before each meal with single use hand towels
- **Wash basins** provided for each trekker upon reaching camp
- **Hot water bottles** prepared each night, using your own bottles, to keep you toasty in your sleeping bag.
- **We purify all our climbers' and staff drinking water** and provide it in your dining tent each morning and evening. Staff will help refill your bottles or Camelback
- **Rental gear** of the highest quality is offered like synthetic sleeping bags, Gore-Tex outer wear, warm layers, gloves, trekking poles, etc.

We offer several optional gear and service upgrades.

Luxury sleeping tent (optional)

- A large 'walk-in' tent with aluminum frame beds and soft foam mattresses, allowing trekkers to sleep off the ground in a single or twin tent
- Solar LED lanterns light the tent
- Two entrances, ventilation ports, with closed cell mats for clean and dry storage of your bags
- Warm sleeping bags, a fleece sleeping bag liner, and a comfortable pillow custom designed to fit inside the sleeping bag

Other options:

- Heated luxury lounge tent with inflatable furniture
- Mess tent heaters
- Hot private showers
- Additional private toilets
- Personal porter

Mountain Cuisine:

Our menus have been developed by a team of professional cooks and mountain foodies who have long-term experience in food service in Tanzania. We continue to develop and improve our menu plans to create astonishingly great meals in such inhospitable environments, using only propane gas cookers.

We have an exciting menu, which includes inspired vegetarian, vegan, and gluten free menu plans. We can also cater to guests' allergies or faith-based dietary restrictions.

- **Three healthy and energizing meals a day** giving the right combination of protein, carbs, and fat, expertly and hygienically prepared to give you energy for the task at hand.
- **Tea-time snacks** and warm drinks upon arrival in camp each day.
- **Trail snacks** – including our own dried fruit and delicious dehydrated (not baked) energy bars
- **Desserts**, a specialty on Superior trips after each dinner
- **Gourmet Tanzanian coffee**, prepared and served with insulated stainless steel cafetières (French Press machines)
- **Organic produce** from our ½ acre garden at our office base.
- **Mountain cool boxes** have been designed to keep foods fresh on the climb.
- **Menu training** is done annually on a two-week intensive training session. Each climb travels with a set recipe book written in Swahili, laminated with photos of each dish of each meal to ensure standards stay high. We are serious about exceeding our trekkers' expectations about mountain cuisine!

Safety Equipment & Training:

Safety is our main priority! We provide more safety gear than any other outfitter on Kilimanjaro. We supply more emergency oxygen than any other outfitter and we're the only outfitter providing a hyperbaric chamber on every trek and the only company supplying a fully rigid litter. On just about every item below, we exceed all others in the provision of safety gear, communication devices and levels of emergency response and expertise.

- **Oxygen** for emergency use - 360L medical oxygen bottles, each with a regulator & 2 nasal canula masks. For groups of 2-6, two kits are provided and for 7 or more climbers, we supply 3 full O2 kits.
- **Hyperbaric Chamber** - a portable altitude chamber for emergency use is carried on every trek.
- **Stretcher / Litter** - A fully rigid steel-framed litter on each trek.
- **First-aid / trauma & medicine kit** - fully stocked as per Wilderness First Responder guidelines with medicine instructions. Two first-aid kits are carried for groups of 9 or more.
- **Pulse-oximeters** - The head guide checks, evaluates and documents climbers' pulse and oxygen saturation levels daily at dinner time.
- **VHF handheld radios** - Three VHF radios with spare battery are carried on each trek, for quick comms between head and assistant guides at the back and front of the group, and the camp manager
- **Mobile phones** are carried by all guides, for daily communications with our base in Arusha.
- **Satellite phone** with spare battery is carried at all times by the head guide for use in emergencies (in areas with limited or poor mobile network). This allows us to make comms immediately, no matter where we are, during an emergency.
- **Safety equipment porter(s)** stay with the group at all times, to ensure that the safety gear is always nearby and ready to employ. We send a second medical equipment porter with every group, allowing us to split oxygen and other redundant emergency supplies.
- **A comprehensive safety briefing** – The head guide briefs the climbers before the trek, covering expectations, risks, safety gear, and proactive safety.

Mountain Guides and crew:

Our mountain guides and core crew are recognized as the most capable and professional crew on the mountain. All our mountain guides are WFR trained and certified, which separates us from all other companies on Kilimanjaro. We have more than 40 WFR certified guides in our organization. Our guides and core crew have the best compensation packages on Kilimanjaro.

- **Wilderness First Responder Certified Mountain guides** – We provide only certified WFR guides on each trek currently certified by Sentinel Outdoor Institute (www.sentineloutdoor.com), a certification process which is done biannually. We have more than 40 WFR certified guides in our organization.
- **Ratio of 1 guide per 2 guests** (on average)
- **Professional cook** who is trained to the highest standards on a set menu plan
- **Waiter** on each trek is trained to expedite the meal service and ensure our climbers' nourishment is their top priority.
- **Campsite Manager** ensures expert setup and breakdown of each camp, practicing Leave No Trace outdoor ethics.
- **Camp setting crew** - Our fastest porters ensure the very best camp location and tent sites each day!
- **KPAP monitoring porter** works as one of our team and reports back to KPAP on our adherence to the standards which we are dedicated to in terms of ethical, fair and transparent work conditions for our porters.
